The ELMCL42L has a wealth of high-tech features. An advanced Azoteq IQ Switch® adjusts brightness to your desired level. Pulse width modulation maximizes battery life, allowing 24 hours of runtime on a low light setting. The shatterproof lens is coated with S500 Poly(organo) siloxane for superior hardness and weathering resistance.

In addition the light boasts convenience features like a sturdy belt clip, a comfortable hand grip and an automatic 30-minute shutoff. The pushbutton tail-switch regulates brightness with the touch of a finger. Powered by lightweight, long-lasting lithium batteries, the ELMCL42L is your lighting choice when only the best will do.

Before Using Your Flashlight:
