

## R215

### BRIGHT

- Krypton bulb provides strong light
- New faceted reflector design enhances focus

### DURABLE

- Survives 2-meter drop test
- Shatterproof lens protects bulb

### NON-CONDUCTIVE

- Heavy duty rubber housing minimizes risk of electrical shock

### NON-SLIP

- Textured handle for secure grip
- Square construction prevents rolling
- Switch guard stops accidental "on" or "off"

A heavy duty rubber case makes the R222 ideal as a non-conductive lighting tool for electrical applications. In addition, it meets IEC 60529 IPX4 standards for water resistance.

A built-in lanyard and clip easily hang the light from nearby pipes or other extensions, and its small size is convenient in tight areas. With an improved, faceted reflector you can count on this light for a wide high-quality spot.

**Before Using Your Flashlight:**  
Please read all instructions and cautionary markings on the package and light
