The Energizer® Solar Rechargeable 7-LED Lantern provides practical, portable lighting for areas where electricity is not available. The lantern may be unplugged from the Solar Panel so you can carry your light to wherever you need it. It provides 5 hours of bright light after charging in full sun for 5 hours. In addition, it has a low setting to use as a night light. Lasting for hundreds of solar charges, the rechargeable battery pack can be replaced making this an even more economical solution to meet your lighting needs.

Before Using Your Flashlight:
Please read all instructions and cautionary markings on the package and light
