

ENERGIZER NO. CHSM

Battery Charger

Features:

1. "Smart Charger" - Individually monitors cell condition and terminates charging current when charged.
2. Charges AA & AAA size batteries.
3. Auto shut off feature.
4. Fold in plug.
5. Illuminated LED indicates charging.

Product Detail:

Designation: Quick Dual Chemistry Battery Charger

Color: Black

Charging Output: 920 mA x 2
460 mA x 4

Charge Capability: Two of four "AA" NiMH or NiCd batteries
Two "AAA" NiMH or NiCd batteries

Charging Time: Two NiMH 1700 mAh "AA" - 2 hours
Four NiMH 1700 mAh "AA" - 4 hours
Two NiMH 750 mAh "AAA" - 1.5 hours

Typical Weight: 93.6 grams (3.0 oz.)

Dimensions (mm): 105.00 x 65.10 x 26.00

Charging Instructions:

1. Insert batteries in the charger as indicated on the diagram in the battery chambers. This charger can charge up to 4 AA or 2 AAA at one time. When charging 1 to 2 AA's, insert batteries in the outer chambers. For charging 1 to 2 AAA's, insert batteries into the center chambers. AA and AAA batteries can be charged simultaneously.
2. Lift the plug on the back of the charger until it snaps into a horizontal position.
3. Plug the charger into an electrical receptacle (outlet) of AC 100-240V. The charge indicator light will turn on and the batteries will begin charging.
4. When charging is complete, the charge indicator will turn off. Charging cycle time depends on battery type.
5. Disconnect from outlet when charging is complete.

Important Safety Instructions:

Disconnect charger from outlet promptly after charging. For indoor use only. Never use an extension cord or attachment not recommended by Energizer. As this may result in fire, electrical shock or injury. Do not operate charger if it has been subjected to shock or damage, and do not disassemble the charger. Always unplug the charger from outlet before attempting any maintenance or cleaning. Never alter the plug provided, and do not use as a power source for any electrical equipment. This charger is not intended for use by young children or infirm persons without supervision. For NiMH and NiCd batteries only. Never charge NiMH or NiCd together. Young children should be supervised to ensure they do not play with the charger.
