Compliance with Regulations

All *Energizer* products are designed to meet or exceed the requirements of various national and international regulations. *Energizer* products are routinely reviewed against applicable international regulations both internally and independently. The most notable regulations *Energizer* products meet are:

- REACH 2006/1907/EC
- WEEE Directive 2002/96/EC
- CE mark – includes RoHS Directive 2011/65/EC and may include Low Voltage Directive 2014/35/EU and Electromagnetic Compatibility 2014/30/EU

Additionally, *Energizer* products do not contain Volatile Organic Compounds (VOCs) or Ozone depleting substances.

All *Energizer* packaging complies with 94/62/EC the Packaging and Packaging Waste Directive.

In addition for lighting products marketed towards children, these products meet the following regulations:

- Phthalate Directive 2005/84/EC
- U.S. Consumer Product Safety Act (as applicable)
- Washington State Children's Safe Products Act
- Vermont Bill S. 239

These regulations may represent only a portion of the standards *Energizer products* are tested against. For compliance with a regulation not listed above, please contact your *Energizer* representative.
