Thank You for Choosing the Energizer Recharge® Universal Charger

Please read this manual before you use the charger and save it for reference.

Batteries: Nickel Metal Hydride (NiMH) rechargeable batteries

Features:
- Designed to recharge Ni-MH or Ni-CD batteries
- 2 charging outputs: 3.6 V and 4.2 V

Specifications:
- Input: 100-240VAC, 50/60Hz, 5 Watts
- Output: 3.6V @ 1000mA, 4.2V @ 600mA

WARNING:
- Do not connect to a battery pack, charger or battery in parallel to a NiMH pack.
- Do not connect to a battery pack, charger or battery in parallel to a NiCd pack.
- Do not use with Li-Ion, Li-Polymer, or other rechargeable or non-rechargeable batteries.
- Do not charge batteries in a hot environment.
- Do not leave batteries in a charged state for extended periods.

Charging Time:
- Ni-MH: 4 hours
- Ni-Cd: 5 hours

Introduction:
Before you can use the charger, you must first charge the batteries. The charger will automatically adjust to the type of battery you are charging. It will charge Ni-MH batteries at a fixed voltage of 3.6V and Ni-Cd batteries at a fixed voltage of 4.2V. The charger has a built-in safety feature that will stop charging if the battery is overcharged or if the battery temperature is too high.

Charging Process:
1. Connect the charger to a power outlet.
2. Connect the charger to the battery.
3. The LED indicators will turn on and the battery will begin to charge.
4. When the battery is fully charged, the LED indicators will turn off.

Charging Time:
- Ni-MH: 4 hours
- Ni-Cd: 5 hours

Maintenance:
- Keep the charger and battery clean.
- Store the charger and battery in a cool, dry place.
- Do not expose the charger or battery to water or moisture.

Troubleshooting:
- If the charger does not work, check the power outlet.
- If the battery does not charge, check the charger and battery connections.
- If the battery does not hold a charge, check if the battery is overcharged.

Additional Information:
- Ni-MH batteries can be recharged many times.
- Ni-Cd batteries can be recharged multiple times.
- Do not throw Ni-MH or Ni-Cd batteries in the trash.
- Do not expose the battery to extreme temperatures.

Thank you for choosing the Energizer Recharge® Universal Charger.
