6V Mine Safety Lantern

**459**

**Product Detail:**
- **Designation:** Energizer Industrial 6V Mine Safety Lantern
- **Model:** 459
- **Power Source:** One 6V Spring Terminal Lantern Battery
- **Lamp Output (lumens):** 64
- **Beam Distance (m):** 230
- **Peak Beam Intensity (cd):** 13,200
- **Run Time (h:mm):** 20
- **Dimensions (mm):** 115 x 173 x 112

**Performance:**
- **Run Time:** 15 Hours

**Important Notice**
This datasheet contains information specific to products manufactured at the time of its publication. Contents herein do not constitute a warranty. ©Energizer / All Rights Reserved.

**EXPLOSION-PROOF**
- Will not cause an explosion in certain ignitable gas-air atmospheres*
- MSHA approved for use in methane-air mixture and UL listed for Division I and II, Class I, Group C and D environments.
- For use in gas-air mixtures of Acetone, Butane, Benzene, Diethyl Ether, Ethyl and methyl Alcohols, Gasoline, Methane (natural gas), Naphtha and Propane.
- Designed so that if lamp is broken, electrical circuit will be opened before filament can ignite these flammable or explosive gas-air mixtures in the surrounding atmosphere.

**IMPACT RESISTANT**
- Heavy duty construction minimizes potential for damage to light
- Break resistant lens protects lamp from damage

**BRIGHT**
- 64 lumen light output

**WEATHERPROOF**
- Stands up to rough weather on the job
- Light still operates after being exposed to splashing water from any direction

Before Using Your Flashlight:
Please read all instructions and cautionary markings on the package and light.
