The Energizer® 2LED Headlight is an economical, stylish lighting solution when both hands are needed. It provides useable light for 35 ½ hours on one set of Energizer® MAX® AAA batteries. In addition, the two white LEDs provide 16 lumens of light, ample illumination for both close-up tasks and lighting your way in the dark. A comfortable, easy-to-adjust elastic strap secures the light to your head and the large pushbutton switch is easy to find and operate.

Before Using Your Flashlight:
Please read all instructions and cautionary markings on the package and light.
