2. Plug in the Charger
• Plug the charger into a standard AC outlet.

FEATURES
• Automatic timer shut-off at 18 hours.
• Individual LED charging indicator.
• Reverse polarity protects the charger and batteries from damage if batteries are connected incorrectly.

TIPS
• Only Nickel Metal Hydride (NiMH) rechargeable batteries. Charging any other types of batteries may cause them to leak, rupture, or explode.
• Do not open the battery, dispose of it in fire, put it in backwards, mix with other battery types or short circuit—may ignite, explode, leak or get hot causing injury.
• Use the charger only in dry locations. Keep away from rain, snow, or excessive moisture. Never plug battery chargers into an extension cord.
• Do not operate the charger if damaged. Do not disassemble, modify any part of the charger, or attempt to use the charger as a power source.
• Always unplug the charger from outlet before attempting maintenance or cleaning.
• This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.

3. Charge

Charges: AA NiMH batteries up to 2650mAh
AAA NiMH batteries up to 1000mAh
Charging Current: DC 1.4V 200mA (AAx2)
DC 1.4V 100mA (AAA x2)

ONE YEAR WARRANTY

This Energizer product is warranted only to the original purchaser upon presentation of proof of purchase, to be free from defects in materials and workmanship for one year from date of original purchase provided that no other repairs, alterations or modifications had been attempted by unauthorized personnel. Not applicable to damage caused by normal wear and tear or misuse. Repair or replacement of charger at Energizer's option. For more information, please contact your nearest Energizer service office.

Energizer Holdings, Inc., St. Louis, MO 63141, U.S.A.

 Charger AA or AAA batteries 1 to 2 at a time.

1. Load Batteries into Charger
• Insert batteries to match the polarity marks (+ and -).

NOTICE:
• LED lights glow green when batteries are charging.
