Thank You for Choosing the Energizer® Compact Charger

Please read this manual before you use the charger, and save it for reference.

Batteries: Nickel Metal Hydride (NiMH)
Rechargeable batteries

Sizes: AA and AAA

Recommended: Energizer NiMH Batteries

**CHARGING**

1. Load Batteries into Charger
   - Slide open the battery charger.
   - Set to AA or AAA. (Flip lever down for AAA).
   - Insert batteries to match the polarity marks (+ and -).

2. Plug in the Charger
   - Lift the prongs of the AC plug until the plug snaps into place.
   - Plug the charger into a standard AC outlet.

3. Charge
   - The green LED glows when charging.
   - When the LED turns off, take out the batteries.
   - Remove the charged batteries and use in your device.

4. Store
   - Unplug the charger from the AC outlet and return the prongs to their closed position.
   - Slide the charger closed.

**FEATURES**

- Compact size is great for your travel needs, like in a digital camera bag.
- Large LED Charge Indicator.
- Reverse polarity protection guards the charger and batteries from damage if batteries are placed incorrectly.
- Automatic Timer: Shut-Off: Turns off the charging current to prevent overcharging AA or AAA batteries.
- Universal voltage: 100-240VAC 50/60 Hz

**TIPS**

- It is normal for batteries to warm up when charging. They will cool down after they are charged.
- Store batteries in a cool, dry place at room temperature.
- Rechargeable batteries gradually lose power when stored. If they are not used for a few weeks, “top them up” to be sure of a full charge.

**WARNING**

To avoid personal injury and property damage from, but not limited to, the risk of electric shock or fire:

- Charge only Nickel Metal Hydride (NiMH) rechargeable batteries. Charging other types of batteries may cause them to leak, rupture or explode.
- Do not open battery, dispose of in fire, put in backwards, mix with used or other battery types or short circuit – may ignite, explode, leak or get hot causing injury.
- Use the charger only in dry locations. Keep away from rain, snow or excessive moisture.
- Never plug battery chargers into an extension cord.
- Do not operate the charger if damaged.
- Do not disassemble, modify any part of the charger, or attempt to use the charger as a power source.
- Unplug before attempting maintenance or cleaning.

**SPECIFICATIONS**

- **Model:** CHDC-CA
- **Charges:**
  - AA NiMH batteries up to 2500mAh
  - AAA NiMH batteries up to 900mAh
- **Input Voltage:**
  - 100-240V AC
- **Charging Current:** 360mA for AA, 120mA for AAA

**LIFETIME LIMITED WARRANTY**
