ELHMCL11

The ELHMCL11 has a wealth of high-tech features. An advanced Azoteq IQ Switch® adjusts brightness to your desired level. Pulse width modulation maximizes battery life, allowing 16 hours of runtime on a low light setting. The shatterproof lens is coated with S500 Poly(organo) siloxane for superior hardness and weathering resistance.

In addition the light boasts convenience features like a sturdy belt clip, a comfortable hand grip and an automatic 30-minute shutoff. The pushbutton tail-switch regulates brightness with the touch of a finger. Powered by light weight, long-lasting lithium batteries, the ELHMCL11 is your lighting choice when only the best will do.
