Thank you for choosing Eveready® Rechargeable System.
This manual contains important operating and safety instructions for your charger.
Please read all charging instructions and cautionary markings on the battery charger
before using charger.

1. Load 2 or 4 AA/AAA batteries into charger.
   Always charge AA and AAA size rechargeable batteries in pairs.
2. Place batteries in the correct positions.
3. Install batteries orientation according to the polarity (+/-) symbols.
4. Plug the charger into a standard AC Outlet. Never use an extension cord.
5. Switch off, unplug and remove batteries from charger when charging completes.
   The Red "LED" glows when charging is in progress.
   The Red "LED" diminish when charging is complete.
   If the Red "LED" does not light up, please check that the polarities are matched.

WARNING
To avoid personal injury and property damage from, but not limited to, the risk of
electric shock or fire:
- Charge only Nickel Metal Hydride (NiMH) rechargeable batteries. Charging any
  other types of batteries may cause them to leak, rupture or explode.
- Do not open battery, dispose of in fire, put in backwards, mix with used or other
  battery types or short circuit – may ignite, explode, leak or get hot causing injury.
- Use the charger only in dry locations. Keep away from rain, snow or excessive
  moisture.
- Never plug battery chargers into an extension cord.
- Do not operate the charger if damaged.
- Do not disassemble, modify any part of the charger, or attempt to use the
  charger as a power source.
- Always unplug the charger from outlet before attempting maintenance or
  cleaning.
- This appliance is not intended for use by persons (including children) with
  reduced physical, sensory or mental capabilities, or lack of experience and
  knowledge, unless they have been given supervision or instruction concerning
  use of the appliance by a person responsible for their safety. Children should
  be supervised to ensure that they do not play with the appliance.
