The Energizer® LED Glow Stick is a versatile, fun lighting solution that serves a number of needs. It comes in three colors – red, blue and green. The first press of the pushbutton switch activates a small, white flashlight; the second – a colored LED that matches the cap turns the tube into a glow stick; the third activates a colored flashing feature. You can keep it around your neck safely and use for personal lighting, safety or fun as your needs dictate. And unlike chemical glow sticks, the Energizer® LED Glow Stick can be used over and over again.

VERSATILE
- 3 lights in one
- Flashing safety light
- Flashlight
- Glow stick

BRIGHT
- White LED provides 9 lumens of light

ECONOMICAL
- Useable light from the White LED for 3 hours and 45 minutes with Energizer® MAX® A76 batteries
- LEDs never need replacing

SAFE
- Breakaway clasp makes lanyard safe to wear around the neck
- Small screw securing battery compartment makes access difficult for small children

**Performance:**

**Run Time**
