Compact and lightweight, the EVEREADY® 1 D LED flashlight is an excellent and economical personal lighting choice. It fits easily in a drawer, toolbox or pouch and the anti-roll design keeps the light from rolling away when you set it down on a flat surface. In addition, it will provide useable light for 27 hours before you need to change the battery (with EVEREADY® SHD battery) and it uses only one battery at a time.

**ECONOMICAL**
- Light for 27 hours between battery changes using EVEREADY® SHD batteries
- Lifetime LED never needs replacing

**CONVENIENT**
- Compact size is easy to store
- Fits comfortably in one hand

**HANDY**
- Easy to use slide switch
- Anti-roll design

**USEFUL**
- White LED provides 7 lumens of light
- Casts light on surfaces up to 17 meters away

Before Using Your Flashlight:
Please read all instructions and cautionary markings on the package and light.
