The Energizer® Rechargeable LED light provides that extra peace of mind during a power loss. When left plugged into a wall receptacle in the “On” position it will illuminate when the power goes out to enable easy location of the torch. When fully charged, it provides 2 hours and 15 minutes of bright light – ideal for finding your way through a dark house. The large slide switch is easy to operate and the plug folds in when removed from the wall, creating a comfortable grip.

Before Using Your Flashlight:
Please read all instructions and cautionary markings on the package and light.

Performance:

Run Time
Continuous Drain to End of Useable Light (22°C)

Battery Type
Tested according to ANSI/NEMA FL 1 Standards.
